SJ RESEARCH

The SJ Research Training Bus

A mobile computer training suite taken direct to teachers and advisers wherever they might be in the UK.

Providing you with a hands on opportunity to:

- experience ways in which networking can enhance IT in the classroom
- offer your own courses or those presented by our training team
- explore a range of educational computer networking options
- use a fully networked suite of computers in the upper training area
- examine networking products in the display area on the lower deck

with facilities that include:

- Acorn RISC OS computers
- Nexus Disc Sharers
- Econet
- Ethernet
- Nexus Networking
- Nexus Junior

The bus is equipped to demonstrate the connectivity possible between Nexus, Econet and Ethernet platforms and has many of the major Acorn RISC OS educational software packages available through the Nexus Disc Sharer.

The Training Bus is being used to support:

- national educational IT exhibitions
- educational IT open days and seminars at regional and local level
- individual schools as a resource for Information Technology INSET

The SJ Research training team have educational and technical expertise to support a wide range of school IT training opportunities. These include; **Nexus Disc sharing, Nexus networking, Nexus Junior, connectivity, network hard disc management and an introduction to networking environments.**

A broad range of educational software packages, the bus and our training team offer an excellent resource for you to use to support your IT training requirements.

SJ training opportunities are supported by one or more of the SJ Research training team, each with significant experience in IT education as professional teachers.

Training will often focus upon the technical and educational issues surrounding computer networking, but by negotiation this may be directed to many other aspects of the use of IT within the classroom.

Schools may wish to negotiate training opportunities based at their own site, with or without the training bus, or at SJ Research in Cambridge.

Typical use of the training bus to support a school's IT training, with a member of the SJ training team available as course tutor for a whole day, would cost £350.00 (ex VAT) plus a fee to cover travelling costs.

Alternatively you may wish to use the bus to demonstrate alternative networking environments to colleagues, particularly to help inform purchasing strategies for your school. Charges for the use of the bus in such circumstances may be refunded, in part, on receipt of an order from you.

Costs of training based at SJ Research in Cambridge is subject to negotiation and the specific needs of the school involved.

If you feel that SJ Research expertise and resources might help answer your IT training needs, please give us a call on 0223 416715. We would be happy to discuss your ideas with you.

Are your mailing details correct ?

Can you please check your address on the envelope containing this mailing is correct. In particular, has it been addressed to the right person, and does it include your job title ? If it is incorrect in any respect please complete the reverse of this slip and return it to the Sales Department at the address below. If any of your colleagues would like to receive their own copy of our mailings you are welcome to photocopy the slip and ask them to complete a copy.

Mailing list update/addition, **(please delete as appropriate)**

making available a unique training opportunity for schools across the country

The SJ Research Training Bus

A mobile computer training suite taken direct to teachers and advisers wherever they might be in the UK.

Providing you with a hands on opportunity to:

- experience ways in which networking can enhance IT in the classroom
- offer your own courses or those presented by our training team
- explore a range of educational computer networking options
- use a fully networked suite of computers in the upper training area
- examine networking products in the display area on the lower deck

with facilities that include:

- Acorn RISC OS computers
- Nexus Disc Sharers
- Econet
- Ethernet
- Nexus Networking
- Nexus Junior

The bus is equipped to demonstrate the connectivity possible between Nexus, Econet and Ethernet platforms and has many of the major Acorn RISC OS educational software packages available through the Nexus Disc Sharer.

The training bus is being used to support exhibitions and conferences across the UK as well as the delivery of courses addressing topics such as; Nexus Disc sharing, Nexus networking, Nexus Junior, connectivity, network hard disc management and an introduction to networking environments.

The SJ Research training team have educational and technical expertise to support a wide range of school IT training opportunities.

Together with a broad range of educational software packages the training bus offers an excellent resource for schools to use to support their training requirements.

SJ RESEARCH

The Training Bus is being used to support:

- national educational IT exhibitions such as BETT 93
- educational IT open days and seminars at regional and local level
- individual schools as a resource for Information Technology INSET

Use of the bus is supported by one or more of the SJ Research training team, each with significant experience in IT education as professional teachers.

Training on board the bus will often focus upon the technical and educational issues surrounding computer networking but by negotiation may be directed to many other aspects of the use of IT within the classroom.

You may wish to use the training bus to support your school's IT training with a member of the SJ training team available as course tutor for a whole day. This would cost £350.00 (ex VAT) plus a fee to cover transportation costs, (£0.50 per mile).

Alternatively you may wish to use the bus to demonstrate alternative networking environments to colleagues, particularly to help inform purchasing strategies for your school. Charges for the use of the bus in such circumstances may be refunded, in part, on receipt of an order from you.

If you feel that SJ Research expertise and resources might help answer your IT training needs, please give me a call on 0223 416715. I would be happy to discuss your ideas with you.
I am currently preparing an information pack for the training bus and would welcome your contributions, ideas and suggestions to ensure that SJ Research training opportunities meet your needs now and in the future.
